Council District # 3

The contractor shall furnish all labor, insurance, equipment, materials and power for the completion of the project: "construction of approximately 2,650 LF of 12" and 15" PVC sanitary sewer and a 750 gpm duplex submersible lift station."

Implications of not being approved: This project will redirect flows off of the ND Washington Interceptor into the Neuhouse Interceptor which has more hydraulic capacity. In doing so, we provide a higher level of service to our existing rate payers and reduce the probability of sanitary sewer overflows, while allowing for future development and growth in this portion of the system.

If Prior Approval is being Requested, Justify: N/A

This project was advertised to contractors on: December 1, 2017, December 8, 2017 in the Journal Gazette and December 6, 2017 in Frost Illustrated, Inc.

The contract for Resolution #76109 awarded to API Construction for \$549,240.00 as the lowest most responsive bidder of 7 bidders and 27% below the Engineer's estimate of \$750,000.00. The second lowest bidder was \$51,916.46 above API Construction's bid.

The cost of said project funded by Sewer SRF Bond
